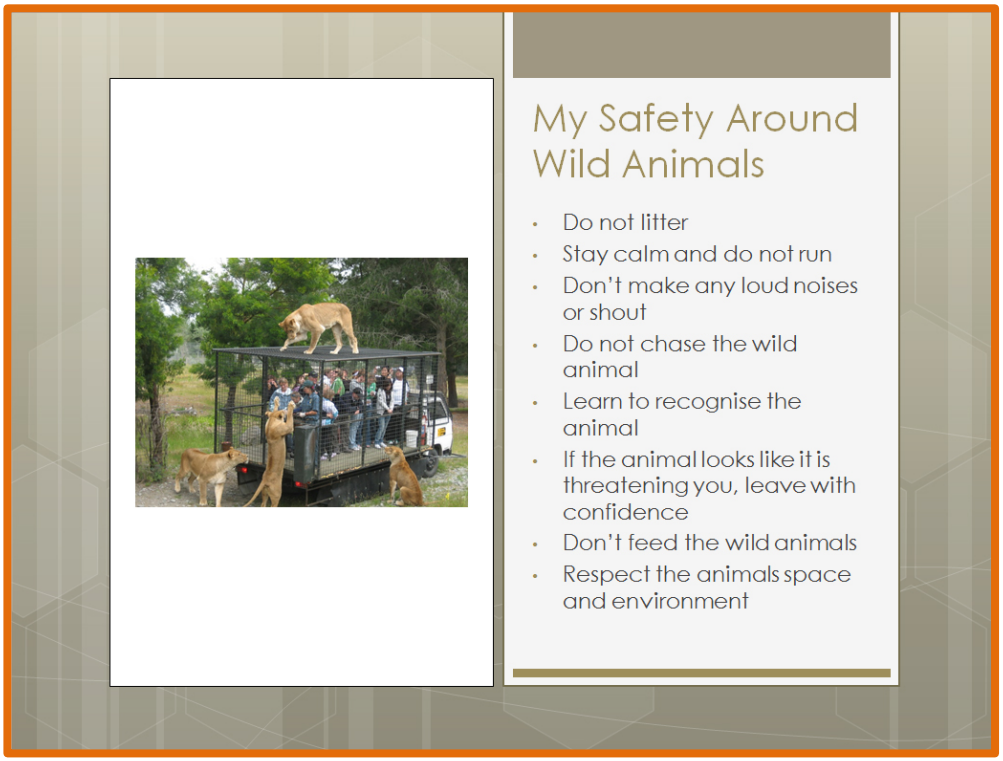
Integrated ICT Learning Unit

Safety with Animals



e-Learner

STRUCTURE OF LESSON
SAFETY WITH ANIMALS

INTEGRATED LESSON	
Prior Learning Requirements	
Concept / Topic: Knowledge of safety around wild animals **ICT Skills:** Inserting text into order; Effective control and use of the mouse	
Educational Game	**10 Min**
A suitable educational game may be used as an optional activity at any point during the course of the lesson at the discretion of the ICT or class teacher	
Keyboard / Mouse Skills	**5 Min**
A suitable activity should be selected by the ICT or class teacher to ensure continuity and progression of appropriate skills	
Tech Talk	**5 Min**
WAV A sound format (pronounced as “wave”) to produce sounds on a computer. A WAV is a sound file which is similar to MP3 but is known to have a better quality.	
Integrated Activity	**20 Min**
Learners identify safety precautions around wild animals.	
Resources Used	
Software: None **Prerequisite:** None **Template:** None **WWW:** https://www.kidpower.org/library/article/safety-animals/	
Subjects	
• Life Skills • English Language	
Beyond the ICT Centre	
• Create a poster of your favourite wild animals.	

INTEGRATED ACTIVITY

In order to promote relevant discussion, the following questions are posed by the educator to the learners:

- **Give a brief definition of wild animals.**
- **How can you keep calm around wild animals?**
- **Can you list any prevention methods from getting hurt when viewing wild animals?**

A short discussion takes place about wild animals and how to prevent yourself from getting hurt if/when you are visiting a game reserve/zoo/sanctuary.

Task: Today you are going to create a presentation identifying safety precautions around wild animals.

Note: You may need to access the following Website Links to find all the information you need:

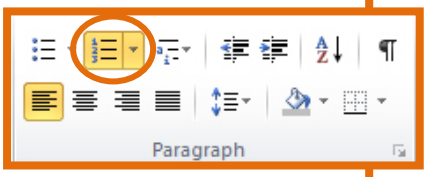
https://www.kidpower.org/library/article/safety-animals/

http://www.albertaparks.ca/william-a-switzer/advisories-public-safety/wildlife-safety-tips.aspx

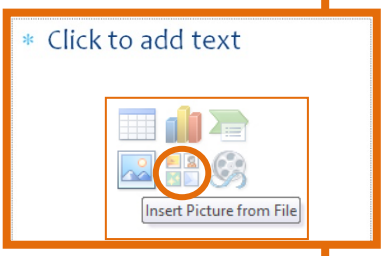
1. Open the **Microsoft PowerPoint programme** by double clicking on the **Microsoft PowerPoint icon** on the desktop or by clicking **Start → Programs → Microsoft Office → Microsoft PowerPoint**
2. **Save your document into your digital portfolio → File → Save As → locate your portfolio → double click → type a suitable name in the file name box → Save.**
3. Do research by accessing the links found above.
4. **Record any relevant** information on the wild animals and prevention methods from getting hurt if/when you are visiting a game reserve/zoo/sanctuary. It is important that you do this using your own words.
5. Once your research is complete, **close** the Internet → **File → Exit**
6. Choose an appropriate design layout for you slide → **Design Ribbon → choose an appropriate design.**

7. Select the first auto layout option by clicking on **Home Ribbon → Layout →** "**Title Slide**".
8. Insert a suitable **heading** by clicking on "Click to add title" box → **type a suitable heading** eg: "Wild Animals"
9. To change the colour and effects of your heading select it → **Format Ribbon → Text Fill and Text Outline options → select an effect or colour**
10. Type your name and class in the "Click to add subtitle box" on the title slide underneath your heading.

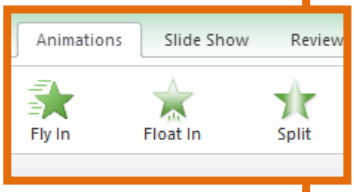
11. To insert a new slide→ **Home Ribbon → New Slide**
12. Select an auto layout option by clicking on **Home Ribbon → Layout →** "**Content and Caption**".
13. Click on the box "Click to add title" and type a suitable title for this slide eg: **"My Safety Around Wild Animals"**
14. Use this slide to list prevention methods from getting hurt if/when you are visiting a game reserve/zoo./sanctuary.



15. Use Bullet points for this slide → **Home Ribbon → Paragraph Tab → Number Bullet Icon**
16. *Note press "enter" on your keyboard to start a new point – it will automatically insert a new bullet point.*
17. To **insert Clip Art** on this slide, click on the **Clip Art icon → locate the images you would like to insert using search terms such as "blood" or "skin" etc → click once on the chosen Clip Art and it will appear on your slide.**

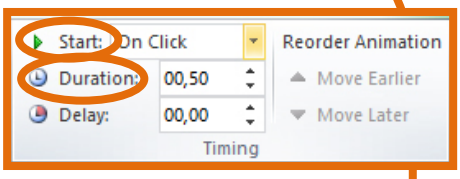


18. To animate your slide presentation, click on your first slide and then on **the Transitions Ribbon → select a suitable animation** (You will see a panel appear on the top of your page.)

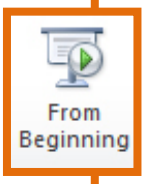


19. To animate each object you will need to **first select your object** like an image → **select a suitable effect.**

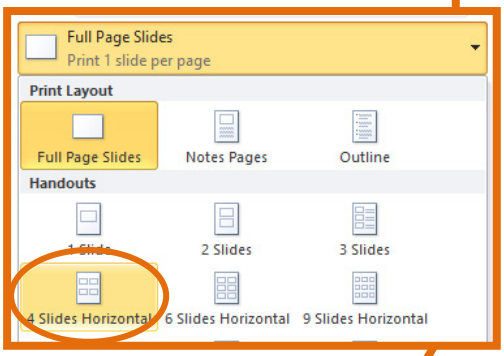
20. Now we will change how the object enters the slide show. First **select** the object → Look on the right of the **Animations Ribbon → select either on click, after previous or with previous.**



21. This option allows the object to either only appear when you click, after the object before it, or with the object before it.
22. Do the same to each slide until you have animated every slide in the presentation.
23. Click on **Slide Show Ribbon → From Beginning**



24. **Print your presentation – 4 slides per page → File → Print → under Settings → Full Page Slides → 4 Slides Horizontal → Print**



25. **Close Microsoft PowerPoint** by clicking on **File → Exit or clicking on the "X"** in the top right hand corner of the screen.

My Safety Around Wild Animals

- Do not litter
- Stay calm and do not run
- Don't make any loud noises or shout
- Do not chase the wild animal
- Learn to recognise the animal
- If the animal looks like it is threatening you, leave with confidence
- Don't feed the wild animals
- Respect the animals space and environment
