### COMMENTS USED FOR OUR FIRST TERM REPORTS FROM GRADE 1 TO GRADE 6

Our children in the Primary School have been taught computer skills based on the ECDL (European Computer Drivers Licence) Foundation and ICDL (International Computers Driving Licence) for the last 13 years and we are so excited about our new computer programme COMPUTERS 4 KIDS/E-LEARNER, which we started using on 17 February 2014, which is endorsed by the ECDL and ICDL. Another special feature is the Online Access for all pupils from home (newly-created Usernames and Passwords will be given to the learners before the end of term). The computer skills and activities taught make use of local content, themes and topics – a form of reinforcement and consolidation of classroom skills, which includes Mathematics, Life Skills, Language, Social and Natural Sciences and Technology. Programmes covered are Microsoft Word, Excel, PowerPoint, Tux Paint and others. Advanced mouse and typing skills are exercised during every lesson. We agree with the Computers 4 Kids slogan: “Learning by Doing”.

Once again I would like to thank everybody at COMPUTERS 4 KIDS for a FANTASTIC PROGRAMME! We at Sacred Heart College L O V E everything about it!

Regards

Mrs Rina Basson  
Primary School IT Teacher
